Flight schedule changes

Flight numbers and departure times can change at any time. It's your responsibility to keep yourself informed of this. You can check your updated flight schedule on the airline's website. We also strongly recommend that you check-in online 24 hours prior to your departure to be updated on your flight schedule.

My name is reflecting incorrect on the e-ticket

Incomplete name: E-tickets have limited character space in the name field. To ensure that your surname is not cut off, your middle name is sometimes only partly shown or omitted. You can check-in online with this e-ticket on the airline's website and use it for travel.

Space is missing: The reason that there are no spaces between the first and middle name is because the airline reservation system does not accept spaces and punctuation marks. For them the first name is the combination of all first names connected to each other.

Example: Mr. John Peter Brown
Will be stated as: BROWN/JOHNPETERMR.

If the names are spelled correctly, your E-Ticket is valid for travel, you can use it to check in with the airline.
